The Neotia University Partners with Batoi for Training and Research on Cloud Computing, Cybersecurity, and Data Analytics

Bhubaneswar, India – March 01, 2018—Neotia University (TNU) has partnered with Batoi, a leading software development automation company, to provide advanced training and research opportunities in cloud computing, cybersecurity, and data analytics. This joint initiative aims to equip the university's students with cutting-edge skills and knowledge in these critical technology areas and make them employment-ready.

Under this partnership, Batoi will provide academic support covering training programs for Neotia students and researchers to set up technology labs, design short-term projects, provide internships and job opportunities, and help BTech and MTech graduates and postgraduates carry out research in various areas like Cloud Computing, Artificial Intelligence (AI), the Internet of Things (IoT), Cybersecurity, and Analytics.

Neotia University will establish a Cloud Computing laboratory on the campus with assistance from Batoi. This lab will focus on the three major aspects of education that affect students' learning experiences: training, projects, and research.

Prof. A. S. Kolaskar, Vice Chancellor of Neotia University, emphasizing the benefits of this collaboration with Batoi, said, "Specialized courses at the Neotia University in the departments of Computer Science and Engineering will be created with specialization in Cloud Computing."

"The aim is to develop industry-needed skills for the workforce on Analytics & Cloud Computing. An innovative curriculum will be developed for the programs jointly. The curriculum will cater to the various skill requirements of organizations worldwide, including banks, computer services, education, healthcare, insurance, manufacturing, retail, and other industries. Senior technical persons deputed by Batoi will deliver lectures on emerging trends and technologies to the students. The partnership with Batoi is a step towards bridging the knowledge gap in the upcoming digital era of IT and workforce transformation. Our goal is to ensure that the students are well-equipped to evolve digitally and to be better prepared when it comes to employability, with the help of training in the correct skill-set."

Giving details about the activities to be undertaken, Mr. Ashwini Rath, CEO of Batoi said, "The key features of the collaboration include assisting in drafting the syllabus for B.Tech and M.Tech programs in CSE, designing short-term projects backed by courses, assistance in
