60%

45% Reduction in Security Vulnerabilities: Addressing security issues early in the development process

30% Faster Deployment: Automated security testing accelerates software release cycles

60% Improvement in Compliance: Continuous monitoring and compliance checks ensure adherence to standards

BATÓI®

Our Capabilities

Secure Every Phase of the Development Lifecycle

Secure Code Development

Embed secure coding practices to identify and address vulnerabilities early

Automated Security Testing

Implement continuous testing for vulnerabilities before deployment

Continuous Monitoring

Real-time monitoring of applications and infrastructure

Compliance Management

Automated compliance checks to meet regulatory standards

BATOI®

Batoi Products for DevSecOps

Tools to Enable DevSecOps Transformation

Batoi RAD
Develop secure applications with built-in security practices and automated code analysis

Batoi Insight
Gain insights into code vulnerabilities and compliance gaps

How Batoi Stands Out

Why Choose Batoi for DevSecOps?

1

Secure coding practices embedded in development with **Batoi RAD**

2

Automated testing and continuous monitoring for faster deployment

3

Tools that ensure compliance, reduce vulnerabilities, and improve security posture
